HeartFelt®

The Ceiling that had to be made

HeartFelt® linear can be applied as ceiling and wall system. Available in 5 grey shades, 5 earth tones and 3 panels sizes ranging from 55 to 105 mm height. HeartFelt® Baffle is applicable as a ceiling system and available in 5 grey shades.
HeartFelt® is available in 5 grey shades, ranging from white to black and in 5 earth tones. The proportion of the coloured and white PES fibers determines the colour of the panels. Therefore colours may differ from presented samples.

HeartFelt® is a linear ceiling system with open joints made of non-woven thermoformed PES fibres.

Wall application

We recommend using only the 55 mm high panels and install them vertically.

PES fibres

Wall application
